Art Unit: 1714

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-13 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 recites a treated particulate inorganic solid comprising an inorganic solid and an organophosphinic compound. Claim 4 depends from claim 1 and recites treatment with a compound other than organophosphinic. This language makes it unclear as to whether applicants require treatment with an organophosphinic compound.

Claims 14-21 are allowed.

References A and B are cited as of interest.
